Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Notice of the Office communication was sent electronically on above-indicated "Notification Date" to the following e-mail address(es):

info@zpspatents.com
rlt@zpspatents.com
klb@zpspatents.com

1. All claims are allowable. However, due to a potential interference, *ex parte* prosecution is SUSPENDED FOR A PERIOD OF 6 MONTHS from the date of the expiration of the previous suspension. Upon expiration of the period of suspension, applicant should make an inquiry as to the status of the application.

All of the claims in the instant application are allowable over the prior art of record. However, after consultation with the Interference Practice Specialist (IPS) (See MPEP 2302) at least one of the currently allowable claims has been determined to interfere with at least one claim of a current US Patent; and therefore a Notice of Allowance can not be issued at this time. An extension of the previous suspension is necessary to keep the instant application pending. The examiner has been working with the IPS to finalize the interference referral write-up for acceptance by the Board of Patent Appeals and Interferences (see MPEP 2302). Upon completion of the referral write-up, a form PTO-850 along with detailed explanation of the proposed interference will be issued.

2. Questions regarding the merits of the application should be directed towards the examiner of record, Russell D. Stormer, at 571-272-6687. Questions regarding the general status of the application can be directed towards the examiner of record listed above or Supervisory Patent Examiner for Art Unit 3617, S. Joseph Morano, at 571-272-6684.

/S. Joseph Morano/

Supervisory Patent Examiner, Art Unit 3617

/David L Talbott/
